

Triceratops Puppet

Step 1: Colour and decorate
Colour the dinosaur the way you like.

Step 2: Cut
Cut out each dinosaur part along the outside black line. You will have a head, frill, 3 horns and 2 legs.

Step 3: Glue legs
Roll each leg into a tube and glue overlap, one will go on your ring finger and the other will go on your index finger.

Step 4: Fold head
There are four lines that run from the nose to the top of the head. Make a mountain fold on each of these.

Step 5: Glue head
Put glue along the back of the folded edges. Form the head shape and press the bottom two edges together.

Step 6: Finish head
Cut and fold the horny ridge tab. Glue the tab inside the head. Cut the horn glue tabs and glue them together. Glue the horns to the circles on the head – the smaller horn goes in front.

Step 7: Put puppet on fingers
Put the dinosaur head on your middle finger. Put one leg on your index finger and the other on your ring finger. Now make your dinosaur walk by moving your fingers.
